Tip Steak Knuckle #176A

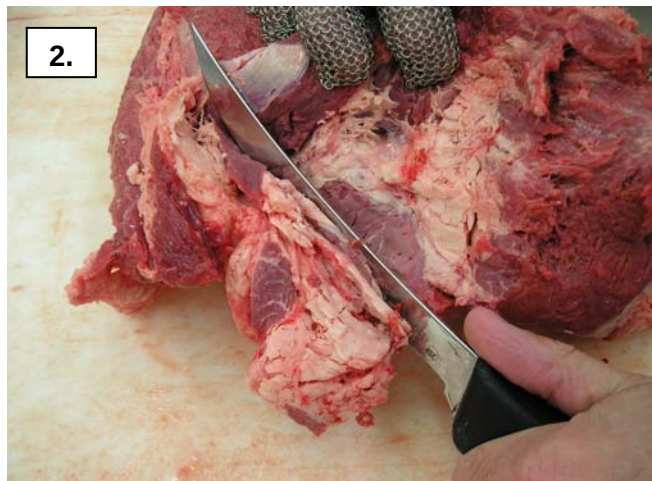

#94356 Beef Round Sirloin Tip Steak Boneless

1. Tenderize the whole Peeled Beef Knuckle. (Sirloin Tip)
2. Trim and remove any connective tissue from the small end or kneecap area of the knuckle.
3. Remove any bone felt, cartilage and fat.
4. Cut Tip Steaks about 3/8" thick until you see connective tissue and small Tip Steaks.
5. Shingle the Sirloin Tip Steaks in a tray and wrap.

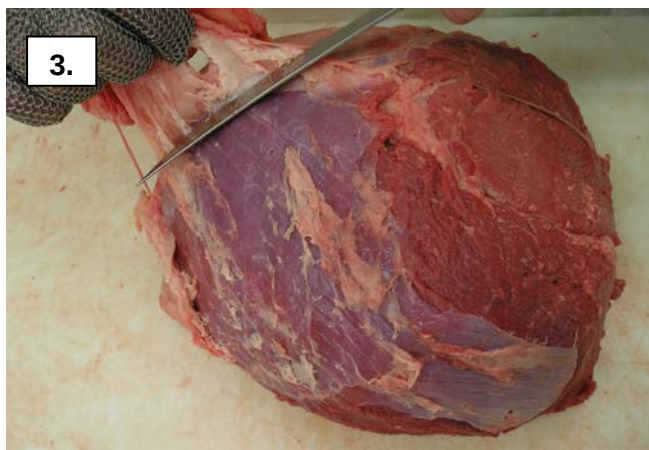

Sirloin Tip Steaks Cutting Policy

Remove any bone felt.

Remove exposed veins and heavy fat.

Outside needs to be trimmed to Blue membrane.

Slice knuckle to desired thickness.

Shingle in tray as shown.
