

Meat Traceability

Option 67 – Scan into Production

Exceptions:

- If a box will not scan, look for the Depot generated label to scan.

- If there is not a Depot generated label, then use the Manual scan.

F6 Manual Mode

Use F6 Manual mode and key the data that the system requires.

Key the Establishment Code, Pack Date, Costco Item # and Case Weight.

Establishment Code, Pack Date and the Case Weight can be found on the box end label.
The system will revert back to normal scan mode after updating the system.

F23 Reverse Scan

Press F23 and scan the barcode. The system will add the case back into inventory and revert back to normal scan mode.

Command Keys

F1 – F10 Press the blue key and the number you want (blue + 3 for F3)

F11 – F20 Press the yellow SHIFT key and the number you want (SHIFT + 3 for F13)

F21 – F24 Press the green CTRL key and the number you want (CNTRL + 3 for F23)
